## Huajiang 1.5KW (Φ80\*200) Water-cooled Spindle Motor for Woodworking Advertisements

 	<b>model:</b>	80 1.5KW ER11
	<b>Dimensions:</b>	Φ80*200Φm/m
	<b>Rotating speed:</b>	24000RPM
	<b>power:</b>	1.5KW
	<b>Voltage:</b>	220V
	<b>frequency:</b>	400HZ
	<b>Bearing:</b>	Four bearings
	<b>cooling method:</b>	Water cooling
	<b>Chuck nut:</b>	ER11
	<b>Current:</b>	/

1. Huajiang 1.5kw (Φ80\*200) water-cooled spindle motor for woodworking advertisements should be used with the inverter that holds the matched parameters with itself. Otherwise, the spindle motor will get burned.
2. Before the use of this [water cooled spindle motor](#) for woodworking advertisements, users should ensure that the cooling circulation system can work normally, and it is strictly prohibited to use the spindle when the circulation system is broken.
3. During the storage and transportation of the spindle motor, the state of the high-speed grease inside the bearing will change, and customers should run the spindle motor at a low speed during the first use.
